## CUSTOMERS (PRIME)

## ABOUT US:

- Trusted experts in wireless and sensor-based asset identification, tracking, and monitoring solutions and services
- We simplify, streamline, and enhance accuracy in asset management, ensuring a strong Return on Investment (ROI)
- We specialize in IT modernization and Digital Transformation (Dx) solutions and services
- Small Disadvantaged Business (SDB) and pending Woman-Owned Small Business (WOSB) certification by the SBA
- Headquartered in the Washington DC metro area
- Over 35 years of experience in enterprise-grade product, solution, and engineering services
- Value-added reseller of industry-leading products and solutions.
- Key personnel awarded patents by the USPTO

## CAPABILITIES:

- Experts in Radio Frequency Identification (RFID), Global Positioning Systems (GPS), Bluetooth, Internet of Things (IoT), Machine to Machine (M2M), Terrestrial, 5G, and Satellite technologies
- IT modernization and Digital Transformation (Dx) solutions and services
- Artificial Intelligence (AI), Machine Learning (ML), and Computer Vision (CV) applications
- Engineering and Research & Development (R&D) services
- Business process mapping and workflow optimization
- Agile project and product development lifecycle support

## CERTIFICATIONS:

- ISO 9001:2015
- ISO 27001:2013
- Certified Scrum Master
- CompTIA RFID A+

## OUR APPROACH:

- Employ advanced wireless and sensor technologies to collect relevant data, facilitating efficient and accurate connections between key resources, including assets and personnel, and specific business processes.

## PRIME PAST PERFORMANCE:

- US Navy NSWCCD: Implemented RFID-based asset identification infrastructure.
- US Navy NIWC: Provided RFID-based asset tracking, IT infrastructure, IT security, and support services.
- Department of Homeland Security (CBP): Delivered RFID solutions and support for CBP's ACE system

## SUPPORTED USE CASES:

## OUR SOLUTION & SERVICES HELPED OUR CUSTOMER WIN THE TIME MAGAZINE’S - BEST INVENTION 2020 AWARD

The Best Inventions of 2020

### Gardyn

Nimble Hub assisted Gardyn in developing an edge compute and wireless sensor system with secure communication link to the customer’s cloud platform
